TOTAL	All clinics		23,912	23,912	23,828	10,763	21,478	19,490	1,186

Notes:

1. Each individual is counted once, at the clinic of the individual's most recent encounter. Data-type columns count the individuals for whom that data element was present in the exfiltrated files; an individual may appear in several data-type columns.
2. "Payment card/bank" covers card type, last four digits and expiry date (1,038 individuals) and full bank routing and account numbers (148 individuals).
3. These figures supersede the preliminary estimate of approximately 18,400 individuals in Cobaltline's draft report of April 4, 2025.
