Notes

Fictional test document - EchoMind synthetic set

1. The atrium roof glazing works were emergency works following storm damage on 7 December 2024, when four panes of the atrium roof were lost and a further eleven were cracked. The works comprised temporary weathering, scaffolding and the replacement of fifteen double-glazed units and associated gaskets, carried out between 9 December 2024 and 21 February 2025. The surveyor and CDM fees relate to the specification and supervision of those works. These costs fall within paragraph 3 of Part 2 and paragraph 4 of Part 3 of Schedule 4 to the Lease.

2. The balance of the sinking fund at 24 March 2025 was £61,400.00. No sum was drawn from the sinking fund for the atrium works.

3. Tenants may inspect the invoices and receipts at our offices within three months after service of this Certificate (Schedule 4, Part 1, paragraph 7.1). Please contact the property manager to arrange an appointment.
